

Home Safety & Modification

HouseWorks' Home Safety & Falls Prevention team creates an orderly space that promotes safety, maximizes independence, and physical well-being.

Our Home Safety & Falls Prevention team starts each new client assessment with a walkthrough of your home environment. We recommend changes that can improve safety and enhance accessibility.

Services include:

- Home Modification — Structural modifications to rooms, doorways, stairs, lighting and more, including full renovations.
- Home Adaptation — Installation of adaptive equipment and reorganization of rooms to aid in at-home independence.
- Heavy Cleaning — Deep cleaning, including bed bug abatement and prevention.
- Home Repair Services — Minor carpentry and repairs, painting, floor installations, and installation or removal of air conditioners, fans and space heaters.
